

Our Lady of Grace has provided me with so many memories, both good and bad. After all, I did spend ten years here: from TK to 8th grade. When I was younger, I always looked up to the 8th graders, so it is weird that we are 8th graders now. My favorite memory at this school was going to Caritas. I loved going on hikes and doing activities with my classmates. It was an opportunity to get closer with my classmates. I also liked sharing a cabin with the girls in my class. My other favorite memories at Our Lady of Grace are the school dances. It was so fun to walk around and talk to people from other schools. I met new people and made new friends. I also remember our fourth grade Sacramento trip. We visited the capital of California and panned for gold. I remember singing songs on the bus and sandwiches on the lawn. I will miss this school so much.
