

I have been here since TK and have so many fun memories here. The first one was from about 2nd and 3rd when every day after school Yaretzi and I would be at Kid Kare and would build houses out of cardboard for our toy hamsters. I was always looking forward to being at Kid Kare because of that. All the older kids would crowd around us and tell us how cool it was. Second, the Sacramento field trip in 4th grade. I remember we looked for gold and walked through the town. At the end of the day we ate beans, rice, bread etc. for dinner. Third, the summer camp here. I remember, for a few summers, my mom sent me here for summer camps. There, other kids and I would have Mrs. Tortolani sit and we made her a menu to order from. We would then make the food using play dough. I remember she always used to get mad at us because we mixed the play dough colors. We would then get 3 to 4 hours of play time.

2023:)
