

I have been at OLG for ten years and every year is full of memories and fun times I wish I could relive. I came a couple months late in TK, but the first thing I encountered was all the others welcoming me and instantly becoming my friend. The next year, in Kindergarten, I had the exact same class, but with more people. All of us became so comfortable with each other so quickly. That year was the most fun because we had no worries and so much fun. Up until 7th grade, a bunch of people left and came, but a majority of us were still together. One of my favorite memories at OLG was all of the fun field trips we had in first grade. We went to so many places, and my class always made it a fun time. One time we went to Adobe Park for our "graduation" and we played games and had root beer floats. Another memory I have is from K - 5th grade going to the OLG Fall Festival. My mom ran the smoothie booth so I got to take orders with my friends. My favorite one was in fourth grade when I got to play around all night with a bunch of my friends and older kids while the parents set up the day before. I will miss going to OLG and I hope to stay connected.

CLASS OF 2023
